

SASANK SURYA THOTA

+91 6300330998 ◇ Hyderabad, India

shashanksurya24@gmail.com ◇ linkedin.com/in/thotasasanksurya ◇ github.com/Sasanksurya

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience building secure backend applications, machine learning systems, and API-driven software solutions using Python, Flask, SQL, and modern development tools. Proven project experience in blockchain security, predictive modeling, and scalable application development with strong foundations in software engineering and problem solving.

TECHNICAL SKILLS

Languages	Python, SQL, JavaScript
Backend Development	Flask, REST APIs, API Integration, Authentication
Machine Learning	Scikit-learn, Predictive Modeling, Feature Engineering
Data Analysis	Pandas, NumPy, Exploratory Data Analysis, Data Preprocessing
Databases	SQLite, MySQL
Security	Threat Detection, Access Control, Cybersecurity

EXPERIENCE

Data Science & Generative AI Intern

Sep 2025 – Present

Innomatics Research Labs, India

- Built ML pipelines for preprocessing, model training, deployment, and predictive analytics workflows.
- Developed Python, SQL, API, and Generative AI solutions for automation and software delivery.

PROJECTS

Secure IoV Authentication System

[GitHub](#)

- Built a blockchain-based IoV authentication system using Python, Flask, SQLite, and SHA-256.
- Simulated Sybil, Replay, and DoS attacks with threat detection and malicious node isolation.
- Created trust-based monitoring dashboards for authentication analytics and blockchain event tracking.

Customer Churn Prediction System

[GitHub](#)

- Developed a churn prediction application using Python, Scikit-learn, Streamlit, and SQL workflows.
- Implemented preprocessing, feature engineering, classification models, and hyperparameter optimization.
- Built a real-time prediction interface for customer retention analysis and business decision support.

Brazilian E-Commerce Analytics Dashboard

[GitHub](#)

- Analyzed e-commerce datasets using Python, SQL, Pandas, and Power BI for business insights.
- Performed data cleaning, KPI tracking, revenue analysis, and customer behavior exploration.
- Built dashboards and reporting workflows for monitoring performance and decision-making support.

EDUCATION

SRM Institute of Science and Technology, Chennai

2021 – 2025

B.Tech in Computer Science and Business Systems

CGPA: 8.9/10

CERTIFICATIONS

- Commonwealth Bank – Introduction to Software Engineering Job Simulation
- British Airways – Data Science Job Simulation
- Tata – Data Visualisation: Empowering Business with Effective Insights
